Executive Summary

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, TypeScript, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing JWT authentication with bcrypt, and creating responsive user interfaces. Strong focus on scalable MVC architecture and maintainable code, actively seeking a full-stack developer internship to contribute to real-world product development.

Education

Bachelor of Technology - Information Technology, <i>Mahendra College of Engineering, Salem</i>	2025 Salem, India
Higher Secondary Certificate (HSC), <i>Government Boys Higher Secondary School, Salem</i>	2021 Salem, India
Secondary School Leaving Certificate (SSLC), <i>Government Boys Higher Secondary School, Salem</i>	2019 Salem, India

Skills

Frontend HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Bootstrap	Backend : Node.js, Express.js, REST APIs, JWT Authentication, bcrypt
Database : MongoDB	Tools & Software : Git, GitHub, VS Code, Netlify, Render, Postman

Projects

- SignIn / SignUp Authentication System, Project Developer (MERN Stack)**
- Built SignIn/SignUp with React.js + TypeScript and form validation
 - Secured passwords with bcrypt, sessions with JWT
 - Protected API routes in Express.js
 - Stored data in MongoDB with Mongoose schema
 - Used TypeScript interfaces to keep code clean
- Cake Shop E-Commerce Web Application, Project Developer (MERN Stack)**
- Built full-stack cake shop with product listing, cart, and order features
 - Created 12+ REST API endpoints for product, cart, and order management
 - Added JWT authentication for secure login
 - Stored data in MongoDB and connected to React.js frontend
 - Deployed on Netlify + Render and tested APIs with Postman
